

**Remarks/Arguments**

Claim 4 is pending in the present application. Claim 4 has been amended to be in independent form as including the features of generic claim 1. Claims 1-3 have been canceled.

Also by this Preliminary Amendment, the specification has been revised to identify the parent application.

Also, enclosed are two (2) sheets of red-inked Annotated Marked-up Drawings. In Fig. 1, the input terminals have been respectively denoted as 14<sub>1</sub>-14<sub>4</sub> as supported on page 11, lines 11-13 of the application. In Fig. 3, the selection signal SL has been denoted as also input to second selectors 30<sub>2</sub>-30<sub>4</sub>, as supported on page 20, line 23 through to page 21, line 2 of the application. The formal drawings as provided along with this application incorporate the drawing corrections therein.

Applicant respectfully notes that claim 4 has been amended merely to be in independent form as including the features of generic claim 1 and to improve form, not to further distinguish over any cited prior art of record. Accordingly, this amendment should not be construed as narrowing scope within the meaning of *Festo*.

Favorable consideration and early allowance of the present application are earnestly solicited.
